[An Illustrated Guide to the Galaxy of Woman's Shoes](#) is the all knowing cheat sheet to any shoe that a woman could wear. Created by [Pop Chart Lab](#), the color coding around the shoes d distinguishes the categories that each shoe falls under.

Can't tell the difference between a slingback espadrille wedge and a peep-toe ankle strap platform wedge ? The prolific infographic design studio [Pop Chart Lab](#) has you covered. The Charted Collection of Contemporary Footwear is a handy, color-coded cheat sheet of the many shoes the modern woman might go sauntering or, in some cases, teetering out of the house wearing.

It just boggles my mind.
