This video is an art project featuring some of my visual ideas in the form of a stop-motion animation. A full documentation is available on [tutori.alitility.com/ doku.php ?id=ubuntu:animation in the command line](http://tutori.alitility.com/doku.php?id=ubuntu:animation_in_the_command_line)

The video was created using open source programs ffmpeg, imagemagick, the gimp, etc.

The song is called "Mouthpiece" by the band "Shellac".
