The [Ultimate Hot Dog Style Guide](#) from [Food Republic](#) is your go-to guide for all the popular styles of hot dogs !

It's not just a sausage in a bun ; it's a beautiful blank canvas. It's a hot dog, which is a foodstuff eaten worldwide. Here are 40 distinctive varieties from around the globe from iconic NYC "dirty water dogs" to fully loaded South American street-cart dogs to Japanese octo-dogs. There is a tubesteak out there for every craving that ever was.

The Coney dog remains my all-time favorite !
