BEST VIEWED IN FULLSCREEN HD - SCALING OFF

This is some of the timelapses I shot in Iceland in september of 2013.

Over three weeks we drove nearly 5500km taking more than 40000 photos on the way.

Shot with Nikon cameras and lenses. Post-processed with LRTimelapse, Adobe Lightroom and Adobe After Effects. Motion control sequences done with a Stage One dolly from Dynamic Perception and a Celestron Skywatcher pan/tilt head.

Thanks to Micheal Levy for his excellent photographer's map of Iceland - international-photographer.com/maps/iceland/
