We Called Dr. Dre and Got an Apple Operator Who Wasn't Amused

[JPEG] [JPEG JPEG](#)

Craig Federighi, Apple's senior vice president of software engineering, introduced a new feature in [OS X 10.10 Yosemite](#) that lets you pair your iPhone to your Mac desktop to make a phone call. To demonstrate the feature, Federighi [called Dr. Dre on stage at the WWDC keynote](#) on Monday.

Dre and Federighi then had a rather cheesy (and scripted) conversation about Dre's new-employee orientation at [Apple](#). But before the call started, we grabbed this screenshot of Dre's profile and noticed that it did, in fact, list a phone number.

[JPEG]

So, we called it. [Read more...](#) More about [Apple](#), [Tech](#), [Dev Design](#), [Mobile](#), and [Apple Wwdc GIF - 43 octets](#) [HTML - 1.6 kio]
