13 head-turning photo spheres from around the world

[JPEG] [JPEG](#) [JPEG](#)

Earth is one big and beautiful blue orb and panoramic [photography](#) really shows it. If you suffer from wanderlust, these images will make you want to walk into your boss' office, hold all your calls and go on an adventure

For those who don't have the privilege of up and leaving your real-work responsibility, Google Maps will do the trick. These interactive, 360-degree photo spheres span across the globe, from the frozen lunar landscape of Antarctica, to the scorching fringes of a volcano crater in Ethiopia
